Peaktime Rave is a sample pack that provides all the samples you need to produce big-room club tracks. It includes five construction kits with WAV loops of Drums, Bass, Leads, Fx, and Vocal Chops. Midi files, Serum presets, and Drum hits are also included. The sample pack is perfect for all the music producers who want to make big room sounds.

All samples are labeled with BPM and a Key scale for ease of work. Drop the Wav loops into your project and start creating your song ideas. Midis files also allow you to see how the melodic ideas were made, plus you can edit the midis and create your own melodies.

Please note: For synth presets, you will need Serum v. 1.345
