"Phantom Syntax" by Banger Samples is the sonic code of a city at night, where every beat reflects the breath of the streets after rain. Soft organic pads create space, neon lights flicker to the rhythm, and dark cowbell melodies echo like footsteps in the void.

Inspired by the aesthetics of Kordhell, Ryan Celsius, Soudiere, DJ Smokey, and Mythic, this pack captures the spirit of ambient phonk—melancholic, urban, and mystically alluring.

Use Phantom Syntax to create tracks that sound like a stroll through a city at night—wet asphalt, the smell of rain, and neon mirages dissolving into the music.
