

Pop Vocals & FX is part of a new breed of sample packs by Audentity Records.

Pop Vocals & FX has 5 full & complete acapellas inside with an amazing amount of detailed adlibs, vocal chops, vocal shots, tones & melodies.

Focussing on 100% new and useful vocals, full acapellas, vocal chops, vocal fx, it is 100% orientated on Vocals.

A total of 335 samples & loops.

Does your track miss that extra? why not try to add one of our new acapellas or maybe just add some cool vocal chops?

The acapellas have been divided into verse, bridge and chorus, which contain the dry and wet versions, they also contain all the backing layers.

The Vocal Loops contain processed and interesting parts of the acapellas, sometimes cut, most often processed, so they sounds interesting on their own.

The Vocal FX are sweeps, stuttering vocals, tape stop fx, Vocoder stuff and much more, all made from the vocals. So very unique sounding.

To make the pack even more complete, we added one-shots, shouts and phrases.. this is the ultimate vocal one-stop-shop.

All chopped and processed, ready to be dropped in your DAW or samplers.

100 % royalty-free.

In detail, you can expect 1.14 GB of content with all audio at 24Bit & 44KHZ.

All loops are key and BPM labelled for maximal flexibility.

Note: Samples & Kits of the music demo are not included, only vocals as described.
