

Vocal Pop & FX 2 is the sequel of the succesful Vocal Pop & FX series and is well-known for their good-sounding vocals, vocal chops, phrases and fx.

Pop Vocals & FX has 4 full & complete acapellas inside with an amazing amount of detailed adlibs, vocal chops, vocal shots, tones & melodies.

We entirely focussed on 100% new and useful vocals, full acapellas, vocal chops and vocal fx.

To make the pack even more complete, we added one shots, shouts and phrases.. this is the ultimate vocal one stop shop.

And we didn't stop here, we also included some of the musical and melodic loops.

The acapellas have been divided in: verse, pre-chorus and chorus, which contain the dry and wet versions, they also contain all the backing layers.

The Vocal FX are sweeps, stuttering vocals, tape stop fx, Vocoder stuff and much more, all made from the vocals. So very unique sounding.

All chopped and processed, ready to be dropped in your DAW or samplers.
