

Introducing the second part of our outstanding series - Progressia. Leave the usual sounds behind with our massive and enhanced sample pack - Progressia Vol.2 - a unique selection of futuristic Progressive House and Trance sounds with modern influences and fresh ideas, presented in the form of construction kits.

Inspired by the basslines of such artists like Maor Levi, Ilan Bluestone, Fatum, Jason Ross we are created unique pack filled of bold experiments, which contains unheard sounds for producing your Trance hit. Finally, you will see how to create lush trance 2.0 hits with unique vocal atmospheres, aggressive basslines, and smooth and breathtaking breakdowns.

For creating a stuff with best quality all content is tempo synced and key labeled, to simplify the work with them. It's time to release your creative freedom!
