

'Progressive Essence' was made for producers searching for high-quality content and is one of the biggest packs from Helion Samples to date. This package contains almost 700 MB of kicks, claps, loops, FX, synth loops and synth one-shots.

You'll find ambiences with root keys to give you dense and rich background sounds to fill in your tracks. Also included are 30 bass shots, 30 synth shots, and over 250 MB of synth loops including 7 Construction Kits.

This pack includes everything you need to make your own loops and tracks. All loops are provided at 128 BPM, and some include variations. If you love punchy, tight kicks and powerful claps or snares then this is the pack for you.

Each Kit and loop was influenced by artists like ARTY, Alesso, Audien, ARTY, Tritonal, Juventa, Estiva, and many more.

All of the samples in this product are 100% Royalty-Free, so once purchased you can use these samples in your commercial releases without having to pay any hidden costs.
