

'Progressive Melodies & Sounds Vol 1' from Scientec Audio includes 50 Progressive House MIDI files, 20 Spire presets and 20 Sylenth1 presets. This pack is the perfect tool to help you with your Progressive House drop parts which is the most important part in the tracks.

You can simply drag and drop your favourite melody into your DAW and use your own sounds for it or use the presets which are included for the melody.

These melodies are inspired by Progressive House producers such as Nicky Romero, Nervo, Marcus Schossow, Michael Brun, Matt Nash, Steve Angelo, Sebastin Ingrosso and many more.

All sounds and melodies from the audio demo are included in this pack and are ready to assist you in your productions.

This pack is definitely a must-have for every serious Progressive House producer out there who is looking for big wide leads, subby basses and beautiful melodies.
