

'Progressive Trance Alliance' by Elevated Trance features seven top-quality Construction Kits, WAV, MIDI & Presets.

Progressive Trance is a subgenre of trance music known for its evolving, layered structure, and emotive soundscapes. It typically features a slower build-up and breaks down traditional trance elements, creating a more intricate and nuanced auditory experience. The tempo usually ranges between 128 and 140 BPM, with rhythms that gradually increase in complexity. Synthesizers, atmospheric pads, and ethereal vocals often contribute to the rich, immersive quality of the music. Unlike other trance subgenres, Progressive Trance tends to focus more on melody and harmonious progression, drawing the listener into a deep musical journey. It's appreciated by fans for its artistic depth, musical sophistication, and emotional resonance.

This amazing pack is inspired by all the Progressive Trance artists from around the world, you have everything to create your next anthem, the pack features Wet & Dry wav stems such as Acids, Bases, Leads, Pads, Vox Pads, Vox, Pianos, Sub Bases, FX, Synths, Plucks, Mid Bases, Percussion and more, MIDIs, Serum, and Spire Presets.
