

Big EDMs' PsyTrance Chakra Pack delivers a new experience in creating a music-driven mind trip.

Included is a generous amount of dark full-on bass loops as well as bass shots that you can use to create your own patterns. Add a cultural touch with Arabian inspired instruments, bright brass horns, Flamenco style leads, and choose from a massive variety of percussion loops.

PsyTrance Chakra Pack offers unique twists and turns, wind downs, impacts, build-ups, and fills. Crisp sounding leads swirling and gradually rising, kick drums you can hear and feel in your chest, and snare hits that define the moment.

Loops can be placed in any combination with no adjustments required. Presets allow you to not only save time but stay current on the latest custom settings created by professional producers with you in mind.

Looking to make your own loops? One hit of the loops you hear are included. This means everything you hear can be modified, giving you complete control when and where you want it. There are no limits and no boundaries.

Create music that you and your audience can experience and flow with. Big EDMs' PsyTrance Chakra pack will touch every single sense just right and guide your body on a journey beyond anything you can imagine. Don't just move music, make music that moves.
