

Psylift Fl Studio 20 template by Eximinds

This template will help you to learn the structure and arrangement in uplifting and psy trance style. At the same time the project is not heavily loaded with various third-party processing. All you need is Spire and FabFilter plugins (Pro-MB and Pro-L). Just load the presets with their respective names. The project is easy to understand, few automations are above the tools. You can study the project, change elements and melodies and create new tracks.
