

**'Psytrance Annihilation for Serum'** by **Elevated Trance** features 128 x Psytrance Serum Presets, FL Studio Demo Templates, and Demo MIDI Multitracks with Stems, Samples, and Presets Used.

Psytrance, short for psychedelic trance, is an electronic dance music genre that emerged in the early 1990s. It evolved from the Goa trance scene in India, blending fast-paced, repetitive beats with hypnotic, layered melodies and complex sound design. Typically ranging between 140 and 150 BPM, psytrance is known for its driving basslines, intricate synth patterns, and use of atmospheric sounds to create an immersive auditory experience.

Subgenres like full-on, darkpsy, and progressive psytrance offer variations in intensity, but all share the psychedelic focus, often inspired by altered states of consciousness. The genre emphasizes deep, mind-altering soundscapes and often incorporates organic, tribal elements alongside futuristic, synthetic textures. Psytrance festivals are known for their vibrant visual displays, with intricate stage designs, UV-reactive art, and immersive environments complementing the music, creating a holistic sensory experience that is highly popular within the global electronic dance music community.

This sound set is full of top-quality Psytrance sounds for your current or next projects, containing Acids, Drives, FX, Kicks, Leads, Mid Basses, Pads, Plucks, Sub Basses, and Sub Pads to bring your tracks bang up-to-date, we have also included the demos as MIDI multi-tracks with presets used for each demo, samples, and stems just import into your DAW if you don't own FL STUDIO, a MIDI multi-track is one MIDI file which when imported loads all MIDI channels needed for that demo.
