

This is a new Psytrance project for FL Studio & Ableton. A fully arranged song, very strong drops with Arabic sounds! Try not to jump during this crazy beat! Everything is 100% royalty-free, you can use any element in your future project - synthesizer settings, samples, arrangement elements, melodies, everything.

This project was produced by Axel Walters and contains a lot of interesting techniques. The whole project has been thoroughly described and marked with colors so you will easily find out what's going on.

In addition, all the presets and samples have been exported to external folders to make sure that everything has worked fine on your DAW.

WHAT YOU CAN LEARN FROM THIS PRODUCT?

- Study how the arrangement was put together
- Find out which techniques were used to build tension within the track
- Learn from studying each individual track (MIDI / Audio)
- Find out how the mixing was done, and how each track was processed
- Learn how the melodies & basslines patterns were designed
- Learn from the synth presets included, which settings were used to make each type of sound
- Get inspired for your own productions
- Overall, an excellent way of learning more about producing Psytrance Music in FL Studio & Ableton
