

Trance Euphoria is proud to release '**Psytrance Destiny 2 Special Edition**' featuring another 30 outstanding PSY Trance Construction Kit Songstarters WAV, MIDI & Presets.

Inspired by all the top PSY Trance artists from around the world and all the top PSY Trance festivals bringing you the best quality tools for your productions.

These songstarters give you a great start to your next track or could be a great addition to your existing projects to give you another direction or dimension to your tracks.

Kits

Each kit include all drum parts from kick (Compressed & Not Compressed) to several percussion loops, wet and dry loops for all the main parts all MIDI parts are included and a mixdown demo for each kit, folder structure is smartly arranged for ease of use also presets for Spire, Sylenth and Serum are included for each kit to replicate the sounds from the demo you have complete control, each kit gives you song ideas to start your next PSY Trance smash hit including Acids, Basses, Pads, Plucks, Leads & Zaps

Advantages With MIDI & Presets

With MIDI you have the ultimate in flexibility being able to edit notes, velocity etc and assign your own sound, these are easily imported to any DAW either Drag And Drop or Import MIDI Options in your DAW.

These MIDIs are also a great source of inspiration for those writers block moments even the pros need motivation and inspiration from time to time, you can also learn how these have been constructed and change/tweak the MIDI to your own taste.

With the included presets you have complete control and can replicate the sounds you hear and that have been rendered for you to use in each kit, you can tweak and do what you want to achieve your own sound.

About Presets In This Pack – PLEASE READ

The presets in this pack are **FREE** and are used as a starting point for each kit but may contain duplications or similar sounds but are included to represent the kits potential, please also note if you do not own any or just some of the VST Instruments above the supplied WAV files are in each kit to be used instead of the included presets or you can still use any virtual instrument of your choice with your own presets or bought presets to assign the vst instrument to the MIDI files and create your own sound, by all means, use the included presets royalty-free in these kits or other productions.
