

Inside the package, you'll get the brand new soundbank of 128 presets for Spire. Ranging from beautiful plucks and leads to pristine pad presets, solid basslines, FX and drum sounds, this soundbank includes some of ReOrder's key signature sounds used in his releases on labels such as Black Hole Recordings, FSOE and Who's Afraid of 138. The soundset also includes brand new trance sounds that make great use of Spire's functionality. All the melodic elements you hear in the audio demo are made with presets from the Spire soundset (except for the drums and choir sounds). These presets are suitable for several sub-genres of trance, including uplifting, progressive and psy trance.
