

The Trap scene has grown a bit dull with thousands of tracks all starting to sound boring and repetitive.

For that reason we made this pack; to give you what you need to reinvent the Trap sound as you know it. You can't find drums like these anywhere else on the internet!

Hand-crafted beats and loops from multiple producers inspired by names like Decap, Boi-1da, Sony Digital, Bighead, Scott Storch, Lex Luger, Fabian Mazur and more!

Dive deep into our exclusive collection, with over 445 samples straight from the iconic producer's sessions. In it, you'll find earth-shattering Huge 808s, Punchy Snares, Enormous Melody Synths, Percussions, FX, & More! Your drums will never sound weak ever again.

It doesn't matter if you make Lo-Fi, Trap, Hip Hop, or any other form of Urban Music – these drums and one shots will make your songs stick out!

So from HQs of The Audio Bar, we wish you enjoy the sample pack we have cooked over the last months for you. You can start drag & drop instantly on your next track and a fresh chart banging tune will be created instantly.
