

Audentity Records proudly presents: Reggaeton Bacano.

This pack ranges from the majestic flavor of the classic reggaeton inspired with a touch of modernity. Influenced by top Latin artists of the moment as well as European bliss so you can find the sound you're looking for.

This collection contains punchy drum loops, rhythmic percussion lines and catchy melody loops that will have you humming them on repeat.

Every single sample has been carefully crafted: from its characteristic percussion, drum hits and a modern recreation of the classic dembow kick tom that's so specific to this genre.

Most of the percussion sounds are played by a real percussionist and processed in our studio to give you the best Reggaeton percussion samples.

As always: everything is royalty-free, 24bit / 44.1 kHz.
