

Inspired by the classics of the 80s, created for modern producers. This package is a mix of live drums I recorded with my friend from Warsaw and also old drum machines. Designed using techniques used in the 1980s, but also affordable in current production. Each sample is unique, designed down to the smallest detail.

This sample pack was the biggest challenge for me. I spent hundreds of hours making it, and I am really proud of what I have made.

Pack Contents:

- 40 Cymbals;
 - 20 Kick;
 - 15 Perc;
 - 20 Snare;
 - 15 Tom;
