

D-Fused Sounds are proud to release "Retro Future", a fresh collection of '80s sounds that delivers all the stuff needed to inject those vibes into your productions!

Whether it's synthwave, retrowave, synth-pop or anything in between, this latest sound pack opens creative opportunities with ease and offers a curated selection of drum loops, basslines, pad and synth loops plus MIDI files for maximum flexibility. All sounds are rendered in industry-standard Wav 24-bit, tempo and key tagged for ease of use and 100% royalty free.

No matter if you're into Synthwave or just looking to add some retro feeling in your next tracks, this collection will fit perfectly in any work!
