

The right FX can make a song. In Revealed FX Tools Vol. 1, you'll find the usual Downlifters, Uplifters, and Impacts. But to give you a creative edge, you'll also discover a wide collection of Alarms, Pops, Zippers, Squeaks, Toy sounds, and a fun selection of Human-made sounds for you to put an original spin on your next track.

To top it off, we added in 32 presets of FX sounds for Sylenth1, so you can shape and tune your own FX exactly the way you want it. Each preset additionally comes with modwheel assignments to give you further sonic options and possibilities when trying to find the right sound to finish your track.
