

'RnB & Future Bass' by 2Deep contains five smash-hit Construction Kits with the potential to catapult your next project to success. This kit includes loops, vocals, MIDI files, and the Spire, Sylenth and Serum presets used to create the instrumentals.

Expect to find polished, melodic vocals ready to kick-start any RnB, Pop or Future Bass production. The included MIDI files give you the freedom to apply hooky melodies with any sound you choose. Alternatively, drag and drop the WAV files into your DAW of choice to get started on huge Pop tunes straight away.

The content included in this pack is not only perfect for mainstream RnB, but also Pop, Future Bass, Dance, Electronica, Urban, and more. Listen to the demo to hear more.

All loops and samples in this library are licensed to you Royalty-Free so you can use them in your commercial compositions at no extra cost.
