

Transport your listeners to a world of stillness and introspection. **"Serein"** by Cloudy Samples is a comprehensive collection of ethereal sounds, organic melodies and cinematic foundations designed for producers of deep ambient, chillout and downtempo music. This pack moves beyond simple loops, providing full construction kits that allow you to deconstruct professional arrangements and rebuild them into your own unique sonic journeys.

Included WAV loops, MIDI files and Reveal Sound's Spire presets give you the freedom to use your own sounds while keeping the emotive progressions, or even change everything to your own exact requirements. The beauty of this pack lies in its versatility. Whether you use the construction kits as a starting point or sample individual textures for a granular synth, the depth of sound is unmatched. Works with any DAW.
