

Serum Future Progressive Volume 1

Containing 177 cutting-edge, modern Serum Presets, 59 MIDI files, a collection of drum samples and a complete Ableton Live 8.1 demo project file (as heard in the demo), this pack truly captures the modern, relevant progressive sound cutting up the clubs.

Inspired by artists such as Grum, Eric Prydz (Pryda), Dezza, Jeremy Olander, deadmau5 and iconic labels such as Anjunabeats and Anjunadeep, this pack has exactly the kind of sounds you need to make your next big progressive track.

Of course, all presets are normalized, rooted, and mod wheel mapped where appropriate, and all are well categorized to make finding the right sound simple and intuitive, just like you've come to expect from us.

177 Serum Presets – Craft driving basslines, atmospheric pad lines, big room plucks and more with over a hundred and fifty presets designed to deliver truly modern club sounds.

59 MIDI Files – Just as you've heard in the demo, these are complete pieces that are ready for you to mix, match, and groove. All MIDI files are organized into individual folders and named after the presets used for each individual element.

1x Ableton Live 20 Project - Use the project files to learn new production techniques and see real world examples of how to utilise the presets in production. Everything you hear in the demo is included – all samples, channel strips, MIDI data and mastering Is in place for you to study as the ultimate educational tool. These are taken directly from the product demo.

Requirements:

- Xfer Records Serum Version 1.36b3 or Higher;
- Ableton Live Version 8.1 or Higher.
