

'Sounds of EDM' from Big EDM is a **phenomenal pack** that includes **9 super-fat Construction Kits, 4 FL Studio templates, 200 Drum Samples and 125 Presets.**

Instant inspiration and **top-notch** sounds are guaranteed.

We've prepared some **recreations of original tracks** with templates so you can go through the whole projects and see how all sounds were made **from scratch.**

We were using mainly **FL Studio native effect plugins**, to be sure you will be able to load the templates to your DAWs.

Also included are **3 original construction kits**, that you can use however you want.

Together with these awesome kits you will find also **100 kick and 100 clap samples.**

As a "bonus" we've included also **85 Sylenth1, 19 Spire and 20 NI Massive presets.**

The sounds of **Blasterjaxx, Bassjackers, KSHMR, Ummet Ozcan, Martin Garrix, Alvaro** and others can be heard in this ultra-relevant pack.

Let these Kits inspire you or simply use the original tracks and samples as they are mixed now.
