

“SPACE EXPLORATIONS”

soundset by Otto K. Schwarz

for
**SYNAPSE AUDIO
DUNE 3**

Description

This **unique soundset** is dedicated to the *vast expanses of the outer space*, with its variety of planets, asteroids, comets and other celestial bodies.

These **50 exclusive performances** were created by the LFO Store’s leading sound designer, *Otto K. Schwarz*, and offers amazing *multi-layered soundscapes*, including soft, bright and soulful **pads**, luscious space **leads**, fantasy **plucks**, flowing **arpeggios**, addictive **atmospheres**, unusual **effects** and much more!

Each preset has **modulation wheel** assigned (and most **expression-** and **velocity-**assigned as well) and allows you to *modulate and customize the sounds deeply*, to the needs of your own musical works. These sounds are suitable *for both studio work and live performances*, and may be used in the *different styles of music* - ambient, new age, cinematic, electronic dance music and so on.

Join us on this spectacular journey through the *world of cosmic soundscapes*! Use your favourite software **DUNE 3** synthesizer to let your musical compositions *reach a new quality level*!

Specification

The presets are *royalty-free*.

In this soundset you will find **50 ready-to-use presets**: 10 ARPs, 3 Atmospheres, 2 FXes, 10 Leads, 15 Pads and 10 Plucks.

Installation

Copy “*Space Explorations*” folder into DUNE3 “**Soundbanks**” folder. In most cases, this folder is located at the following path: `\Documents\Synapse Audio\DUNE 3`.

Please take into account, that DUNE **v3.4.0.4** was used to create these presets. You may have several errors if using the previous VST version.

*Best wishes,
LFO Store team*
