

Spire Synthwave Essentials Bundle contains both Spire Los Angeles Nights (Volume 1) and Spire Miami Nights (Volume 2), two products which are now neatly combined into an affordable inspirational bundle.

Picture yourself driving down the San Bernadino freeway with the top down and the wind in your hair, the distinctive sights of Los Angeles ahead and the chill sounds of 80s synthwave surrounding you. Great music doesn't just have its own sound – it brings the imagination to life.

Renowned sound designers John Kunkel and Joe Garrett allow you to capture that spirit in your own productions with a complete set of 80s inspired Spire presets, injecting the warmth and mood into your synthwave, progressive, and trance tracks.
