

Short Description

If you're looking for aggressive leads that will cause people to go nuts on the dancefloor or heavy bass sounds that hit people right in the chest, then Spire Trance Essentials Volume 2 is the perfect sound set for you. Produced in collaboration with the talented sound designer John Glenn Kunkel, this sound set contains 128 presets made exclusively for trance enthusiasts. You'll find nothing else out there like it.

Long Description

Produced in collaboration with talented sound designer John Glenn Kunkel (The New Division), we are proud to present Spire Trance Essentials Volume 2.

With 128 quality made presets, Spire Trance Essentials Volume 2 is the perfect addition to your production library. You'll find a range of iconic leads and plucks from popular uplifting trance tracks, as well as a collection of rolling basses, warm pads, and tech-trance influenced sounds similar to those used by Daniel Kandi, Ultimate, Sean Tyas, Simon Patterson, James Dymond, Sneijder, Simon O'Shine, and many others.

While most of our sound sets are geared towards trance, this one stands out among the rest due to how focused it is. Whether you're looking for the classical trance sounds of the 90's and early 2000's, or more modern uplifting sounds, then you'll find them in this sound set.
