

Spire Trance Family 2

We present to you a new set of presets for the Spire synthesizer - Trance Family 2, which contains 64 fresh inspiring sounds for creating great trance compositions. It also works perfect for other electronic styles. This set contains all the necessary sounds for creating powerful melodic tracks, including dense and energetic basses, dizzying effects, cosmic leads, invigorating plucks, piercing and enveloping pads, the creation of which was inspired by the sound of Above & Beyond, Andrew Rayel, Armin van Buuren, Genix, Ferry Tayle and many others.

Together with the juicy and high-quality Spire Trance Family 2 presets you'll get over 100 samples and loops that will be the perfect complement to your collection of resources for creating powerful and swinging rhythm sections. And for those who like our demos for this product, we sorted the presets from them directly into separate folders so they could be found easier and used immediately. Join our trance family!!!
