

**Ambiente Solstice presents STELLAR EVENT for Reveal's Spire Plugin.**

STELLAR EVENT is an exploration of deep space ambience — 120 presets shaped by the energy of celestial collisions, cosmic waves, and interstellar mysteries. This collection for Reveal Sound Spire captures the low-end rumble of shifting planets, the ethereal glow of starlight, and the vast resonance of galaxies in motion.

From dark drones and seismic basses to glimmering pads, shimmering textures, and spectral plucks, each preset is designed to immerse you in the sound of the universe itself. Perfect for ambient, cinematic, electronic, and space-inspired music, STELLAR EVENT is your soundtrack to the infinite.
