

Studio Tronnic proudly presents its newest soundbank,
“Tech House Movement for Spire”, thus following the trends that make success
in labels like Suara, Tolroom, Hot Creations among others.
There are 127 presets that will make a difference when it comes to producing
your track, ranging from digital sounds defined up to analogical emulations,
all carefully modulated to give you the best result on your track, plus Macro control
programming
in all presets with varied effects besides change of tone,
which will give you much more options of sounds and automations .
Inspired by artists such as: Olivier Giacomotto, ANNA, Adrian Hour,
Dennis Cruz, Demarzo, Matador and many other super producers of the genre.
This soundbank is what's missing in your library for create great tracks.
So do not waste time, let your tracks brighter and bombastic with
this incredible soundbank, enjoy it!
