

'Techno Maniac' by Immense Sounds is seven outstanding Techno Rave Construction Kits featuring WAV, MIDI, and Serum Presets.

Techno Rave is an electrifying genre combining the pulsating beats of techno with the high-energy atmosphere of rave culture. It blends fast tempos, repetitive rhythms, and synthesized sounds, creating an immersive audio experience. Techno Rave events are characterized by their vibrant light shows, large crowds, and all-night dancing. Pioneering artists like The Prodigy and Moby helped shape the genre, infusing it with elements of acid house, hardcore, and trance. Today, Techno Rave continues to evolve, maintaining its status as a central pillar of electronic dance music culture worldwide.

This top-quality pack is inspired by all the Techno Rave artists worldwide. You have everything here to create your next Techno Rave anthem or it could be a great addition to your existing projects. Bringing you a harder edge to your Techno productions featuring wav stems such as Synths, Gates, Strings, FX, Leads, Arps, Pads, Plucks, Basses, Vocals, Percussion, and more, MIDIs, and Serum Presets.

About Presets in This Pack

Some presets may not be included in the kits because real instruments or layered samples were used, in most cases the MIDI is available so you can create your sound from them or use the WAV stem instead. Please note to beginners if you do not own the above VST Instruments the supplied WAV files are in each kit to be used instead of the VST instruments or you can still use any virtual instrument of your choice with your own presets or bought presets to assign the vst instrument to the MIDI files and create your sound, by all means, use the included VST Instruments presets if you have them royalty-free.
