

A Bass House style template. 'The Best' brings the sound of artists like Tchami, Chris Lake, JVST SAY YES, and others!

Starting with a delicate mixing for the bassline and sample selection, as well as sound designing from scratch to create the high lead chords. We created a Bass House template that brings hype to the speakers and explode in the 2018 charts.

'The Best' also includes royalty free recorded vocal samples to add more flow to the track, and to teach you mixing with vocals.

Enjoy and we hope you learn many new music production techniques with this template.
