

Check out our new and fresh Tech House 'This Is Pumping' Template. With a bouncy bassline, some acid house elements, combined with some great effects, this template has all elements that will help you to create your next single. Another special element from this track is the use of royalty-free vocals, selected to bring the hype to the max!

Inspired on top chart tracks from Tech producers like Solardo, FISHER, Carl Cox, Hot Since 82 and others!

Besides the royalty-free vocal samples, 'This Is Pumping' includes processed drum one-shots, drum loops, Massive, Spire, Diva and Zebra presets, and FXs samples.

We use a couple of 3rd-party plugins for all audio processing and final tweaking the track in the mastering stage. All MIDI files and all presets were created from scratch, and tagged and exported in separate folders.

What's Inside The Template?

- 17 WAV Files in Total;
- 8 One-Shot Drums;
- 3 Drum Loops;
