

A Tech House project file template featuring influences from artists such as Prok & Fitch, Kolsch, Jay Lumen, and more!

Trumper is influenced by the trending Tech House tracks in the charts, keeping the essence of a catchy and groovy bassline and minimal organic synths.

We also give you exclusive secrets behind the sounds, with production tips from the producer behind this pack.

The template contains top quality audio loops, one-shots, MIDI, Sylenth1 and Massive presets.

The project also includes royalty free vocals, that evolves the track between the breakdowns and drops.

From this template, one can learn how to create awesome deep basslines, techy drums, flowing atmospheres, as well as several mixing & mastering and creative techniques.
