

Ultimate House Presets (Massive) by Apollo Sound is the first pack in this exclusive series of House music synth presets for your favorite virtual synthesizers. This time we have presets created using the classic virtual synthesizer of all modern producers - Massive by Native Instruments.

We have collected only the most needed and popular patterns of this genre all in one place and added a bit of our vision of house music. Here you can find Deep & Wobble Basses, a wide range of House Leads, Modern Plucks & Lush Synth, and of course frantic FXs.

Ultimate House Presets (Massive) fits perfectly for all House producers making Classic House, Deep House, Progressive House, Future House, Bass House and more!

Here is everything to hit the dancefloor. You just need to download this Massive house patches soundbank and drop new patches into your synth. Now let it be House!
