

DESCRIPTION:

Ultimate House Presets (Serum) by Apollo Sound is the second pack in this exclusive series of House music synth presets for your favorite virtual synthesizers. This time we have presets created using the indispensable virtual synthesizer of all modern EDM producers - Serum by Xfer Records.

We have collected only the most sought-after and popular patterns of this genre all in one place, and added a bit of our vision of House music. Here you'll find Deep & Wobble Bases, a wide range of pumping House Leads, stabby Plucks & top-notch Synths, and of course cosmic FXs.

Ultimate House Presets (Serum) fits perfect for all House producers making Classic House, Deep House, Progressive House, Future House, Bass House and more!

Here is everything to make House & EDM bangers. You just need to download this House Serum pack and drop new patches into your synth. Now let it be House!
