

'What About: Ultra EDM Tools' from W. A. Production is a brand new, super powerful pack that contains 12 stunning Construction Kits and more than 45 presets for Sylenth1, Spire and Massive together with 50+ MIDI Loops. Every single Kit is stuffed with the most current drum, FX, vocal and synth samples. Massive build-ups, drops, melodies and more awaits you. All 100% Royalty-Free.

'What About: Ultra EDM Tools' was made by a group of skilled EDM producers and ghost producers with releases on labels such as Revealed, Dim Mak, Ultra, Oxygen and others. Inspired by the best the freshest sounds of the EDM scene.

The sounds of UmmeT Ozcan, Martin Garrix, Dmitri Vegas & Like Mike, Moti, Dyro, Firebeats, Vinai, Ralvero, Alvaro can be heard in this ultra-relevant pack.

Let these Kits inspire you or simply use all samples how they are mixed now.

Drop tracks as well as many of the breakdowns tracks are provided in dry and wet versions. If you like any of the sounds, you can simply use the preset of it and create your own melody, for example. The possibilities are limitless.

Everything is 100% royalty-free and ready to drag and drop right into your mix. What About making your tracks ultra?
