

**'What About: Ultra EDM Tools 2' from W.A. Production is the second volume in this hugely successful and powerful series. This time the W.A. Production team has included 12 stunning Construction Kits together with more than 50 presets for Sylenth1, Spire and Massive and 40+ MIDI loops. Every single Kit is loaded with the freshest and most up-to-date drum, FX, vocal and synth samples.**

Massive build-ups, drops, melodies and more awaits you. All 100% Royalty-Free. 'What About: Ultra EDM Tools 2' was made by the same team of producers that brought you the first volume as well as 'What About: Mainstage EDM Breaks & Drops' and a host of other best-selling packs.

These skilled EDM producers and ghost producers have releases on labels such as Revealed, Dim Mak, Ultra, Oxygen and others. This content has been inspired by the best and freshest sounds from the EDM scene including the likes of KSHMR, Ummet Ozcan, Martin Garrix, DubVision, Burns, Dmitri Vegas & Like Mike, Moti, Dyro, Firebeats, Blasterjazz, Vinai, Ralvero, and Alvaro.

Let these Kits inspire new creations or simply use the samples as-is.

Drop tracks as well as many of the breakdowns tracks are provided in dry and wet versions. If you like any of the sounds, you can simply use the preset of it and create your own melody, for example. The possibilities are limitless.

Everything is 100% Royalty-Free and ready to drag and drop right into your mix. What About making your tracks ultra?
