DESCRIPTION:

Who says LoFi is only sad or sedative music?! LoFi also can be uplifting, motivating, invigorating. Just like a cup of good coffee in the morning! Or like our fresh sample pack called Upbeat LoFi Hip-Hop. Get 600+ lofi samples & loops charged with optimism and good mood. It will be your indispensable sound source for upbeat lofi beats production. So, let's get to the point...

Following our tradition we were creating this pack in collaboration with various professional musicians: jazz keyboardists, guitar & bass guitar players, double bass performers, saxophonists & trumpeters. So you'll definitely find a large number of live instrument loops & samples inside.

Loops' content of the pack includes drum loops (full, tops & stems), bass loops (synth, live & upright), keyboards (Rhodes, acoustic pianos, wurlies, vibraphones), electric guitars (chords, mutes & wah-wahs), horn loops (sax & trumpets), funky synths (leads, plucks, synth brasses), texture loops (vinyl crackles, tape noises, nature ambiences). Of course, it is also worth mentioning the folder with combi melody loops that can be an excellent sampling/chopping source or a guide tracks for pack using.

One-Shots' content includes 150 custom made drum hits (kicks, snares, claps, hihats, percussion, drum fills) and 120 carefully selected musical one-shots (bass hits, keys chords, crate chops, guitars, stabs, flutes, horns & synths). Beside that you'll get 35 suitable sound effects (vintage cartoon sounds, old school vocal chants & voice overs, turntable noises and more).

All the loops and samples are key & bpm/tempo labeled. Additionally musical loops have corresponding midi files for full flexibility and easy use. However, it is important to remind you that all our products are 100% Royalty Free and can be used in any commercial projects.

All of the above are made with positive vibrations & love for music. Enjoy & Create!

Please note: Every sound featured in the audio demo is INCLUDED in this sample pack!
