DESCRIPTION

I think we can all agree to say that getting a solid sounding buildup for your track is VERY difficult to get right in trance music. Eventhough it's hard, there are quite a few tricks that instantly make your buildups sound better (including transition work, automation, energy control), and i wanted to offer a template that sets you on the right path for your trance track.

I created a brand new uplifting template that nail the typical driving trance sound with rolling hi-bassline parts, energetic synths and the typical offbeat sub-bass reminiscent of the sound of labels such as Future Sound Of Egypt (FSOE). The content is 100% royalty free so the basslines can be used either as an educational tool or as a basis for your own tracks.

The beautiful part about this template is that it sounds great, eventhough it only uses ONLY 2 synths: LennarDigital Sylenth1 and Reveal-Sound Spire.

WHAT DO I GET ?

The Cubase, Ableton or FL Studio template, as heard in the demo

All MIDI and Audio channels with FX chains and mixing included

All the MIDI files included

All the Audio files included

All the Synthesizer presets included

FEATURES

All sections (basslines, FX, drums) are color-coded and named correctly so you know exactly what you are looking at.

100% Royalty Free : you can use any element from this template in your own productions.

Sounds exactly like the audio demo.

Uses Sylenth1 and Spire ONLY.

WHAT CAN I LEARN FROM THIS PRODUCT ?

Study how the basslines are created with several layers, and how the different layers / parts interact with each other

Learn from studying each individual track (MIDI / Audio)

Find out how the mixing was done, and how each track was processed

Learn how the bassline patterns were designed

Learn from the synth presets included, which settings were used to make each type of sound

Get inspired for your own productions

Overall, an excellent way of learning more about producing buildups for Uplifting & Driving Trance Music

WHAT DO I NEED TO OPEN THESE TEMPLATES ?

Steinberg Cubase v5.1 or Ableton v9.6 or FL Studio v12.2

LennarDigital Sylenth1 v2.2.1 or higher

Reveal-Sound Spire v1.1.14 or higher

FabFilter PRO Q v2.0 or higher (CUBASE ONLY)

ArtsAcoustic Reverb v1.6.0.0.15 (CUBASE ONLY)

LFO Tool v1.0.0 (CUBASE ONLY)
