

## **Engineering Samples RED - Vintage Electronica Vol.2**

"Vintage Electronica Vol.2" is the newest installation by german based Sub Label "Engineering Samples RED".

Inspired by artists like Bonobo, Four Tet and more.

Packed with over 568 MB of outstanding analogue sounds & loops this pack is entitled to match the highest standards and needs of Electronic music producers, Sounddesigners & Filmscore Producers worldwide.

Including 4 top notch construction kits, in cutting edge quality, recorded using the finest equipment, composed and selected with the highest artistic claim.

Most of the sounds & Loops are coming from analogue Synthesizers like our Moog Sub 37, Moog Mother 32, Roland Juno-6, Roland System 100 & Arp Odyssey - recorded with a Technics RS1506 Tape Machine.

All of the Main Elements are available with & without Sidechain-Compression and exist in a Dry & Wet version for maximum flexibility.
