

After a great success of "**Vocal Chants**", Freak Music decided to release second volume of this brilliant product. This time it's a collection of 78 professionally-made and perfectly selected chants. You will find male and female vocals, pre-shifted samples, pitched and original voices. Everything is mastered and EQ'd, but not too much - to give you more possibilities on these samples. The only thing you have to do is drag and drop.

All of these sounds are categorized in folders, tempo labeled and 100% Royalty-Free. Use these samples in your tracks to take it to the next level and make your music more professional.
