

'Vocal Trance 2' by Elevated Trance is the 2nd instalment of this exceptional series featuring five brand new outstanding Vocal Trance Construction Kits WAV, MIDI & Presets.

Vocal trance is the melodic, song-oriented branch of trance that fuses sweeping synths and club-ready structures with fully written vocals, giving electronic tracks the emotional arc of pop while retaining hypnotic power.

Most vocal-trance tracks sit between 128 and 142 BPM. A standard arrangement opens with a rhythmic intro for beat-matching, builds through arpeggios and side-chained pads, pauses for an extended, often beat-free breakdown where the singer delivers verse and chorus, then erupts into a euphoric drop powered by supersaw leads, four-on-the-floor kicks and cavernous reverbs. Lyrics focus on love, heartbreak, self-discovery or transcendence, letting crowds sing along and find catharsis.

Ultimately, vocal trance endures because it marries dance music's physical rush to melody and narrative. On a festival stage, the breakdown grants thousands of dancers a collective breath before the beat returns; on headphones, it offers a private cycle of tension and release. Thirty years on, the recipe still works: a human voice striving for something bigger, lifted by shimmering pads and a relentless kick, reminding listeners that euphoria and vulnerability can share the same song.

Product Details:

5 x Full Top-Quality Vocal Trance Construction Kits.

287 x Total Files.

210 x 24-Bit Wav Files.

33 x MIDI Files.

33 x Spire Presets.

1 x Sylenth Preset.

5 x MP3 Mixdown of the Demos.

5 x Lyrics txt files for each kit.

Kits 139 - 142 BPM & Key-Labelled.

Each kit includes – Loops, MIDI, One-Shots, Presets, Stems All, Stems Dry, and Vocal Folders.

Vocals Wet & Dry Versions.

891MB Zipped | 2.3GB Unzipped.

Everything is 100% Royalty-Free.
