

W. A. Production presents “What About: Cinematic Tension FX”. An audio sample pack that will no doubt enhance your current production. Are you looking to give your tracks a powerful cinematic feel? Score a movie? Or even design music for video games? Then this is the pack for you.

Inside you will find plenty of loops, one hits and effects that tell a story without words and deliver the same impact as you hear in the movies. Orchestrated and carefully timed sounds that evoke feelings of suspense, fear, anxiety, anticipation, and excitement. Cinematic Tension is monumental in capturing the atmosphere of real-life scenarios.

Ambient pads of breathy circulating air, sorrowful strings, the intense loud stab of an action sequence, the creaks of an old structure, mechanical functions, slowly creeping risers that lead up to whatever possibility you can imagine.

What is walking down the hallway? The footsteps get louder and faster as they come closer. Deep percussive bangs hit slowly and build with the intensity of the footsteps. Deep bass plays the rhythm of a heartbeat. The strings that play indicate that there may be hope, a light at the end of the tunnel, suddenly a loud BANG !! How does the story end? You decide when you pick up these sounds found in the Cinematic Tension FX pack from W. A. Production.

Our audio sample packs are created by experienced sound design professionals. Our goal is to provide you with the most unique and innovative sounds with our highest regard for quality.
