

Cinematic Tension and FX 2 from W. A. Production is giving you more dramatic and epic cinematic sounds.

Whether you are looking to score a film or create the perfect soundtrack for gaming. Cinematic Tension & FX gives you the building blocks for your own ambient layers. Complete with Strings that build that white-knuckled anxiety, horns with a smooth attack, subtle choir voices, sounds of desolation, synth growls that can level buildings, distorted and gloomy guitars, demanding snare pops, and gripping percussive elements. Endless FX such as explosions, impacts, alarms, vibrations of live electrical currents, and more.

Our contemporary cinematic sounds cannot be beaten. This pack will empower the creation of epic proportions. Delivery an exhilarating masterpiece of tension, fear, suspense, and intrigue. Depict scenes from a pandemic, a post-apocalyptic wake, an invasion, a takeover, hostages, or deliver the sounds of precise strategy.

This pack also contains 5 multi-sampled bass shots and loops ranging from smooth, sub-bass, and deep sinister bass. Get on board with the best sounding growls and distorted bass shots to hit the market. We didn't just give up the bass, we've also thrown in 5 multi-sampled synth shots. From pads to growls and everything in between. We've also designed some of the best persuasive elements and accompanied by the hi-hats, toms, bongos, kicks. We didn't stop there. You'll also command the sounds by loading up or secret sound recipes for Serum and our MIDI sequences.

Construct, compose, and make it compelling with Cinematic Tension & FX 2 from W. A. Production.
