

Don't let having the wrong audio samples stop you from making an awesome track. Upgrade your library with What About: Future House Spirit from W. A. Production. Inspiration comes from what you feel and what surrounds you. Let this pack of amazing sounds surround you and you will feel a new sensation of creativity rush over you. From strong and powerful melodies to upbeat and feel-good rhythms. Curiosity building soundscapes. To sub bass that demands attention. This is everything Future House is made of.

Also included with this sound library are 5 construction kits. Construction Kits are completed tracks that we have broken down into stems. Not only did we break down the stems, but we have also included the FL project file and presets. This way you can see every aspect, every knob turn, every effect that we applied in order to make the sound. This gives you not only the ability to remix the track as your own but to also customize and fine tune it the way you want.

Get What About: Future House Spirit from W. A. Production and give your tracks some true Future House sound.
