

The hottest property on the floor right now, G- House. And who is offering up the most creatively intelligent G-House Pack? W. A. Production.

Often referred to as "Ghetto House" or "Gangsta-House". G- House has no boundaries or limits. G-House captures its raw edge from the street and is fused with the sub-bass of House music, G-House has taken rap and hip hop and brought it to a whole new level by exploring the possibilities within electronic music.

If you are looking to create, indulge, or get in on G-House, this is the pack for you. Not only does the G-House Pack have groovy synth patterns, chaotic percussive elements, sub-smashing basses with extreme low-end, and dirty synths, this pack has 6 Construction Kits.

What are Construction Kits?

Construction Kits are designed by highly diversified mastermind professional producers. Each kit contains the project file, presets, samples, every adjustment, knob tweak, applied effects and automation used to make a complete track. This puts you at the helm of actual studio production to see how it was constructed. You will learn the signature sounds, timing, and structure of G-House. You have full control to make any changes and make your very own track. We have also included both wet and dry sounds so you can have more control.

Our audio samples utilize the newest in modern technology and are second to none when it comes to quality. If you want real professional quality and are ready to make a dark and dangerous brand of G-House, pick up the G-House Pack from W. A. Production.
