

W. A. Production is cranking out yet another mix that is sure to set the night on fire. No restrictions, no boundaries, no limits inside our latest release Hybrid Trap Wolf. Inside you will find dancing melody mixed within their own perfectly balanced melodic structure.

Claps with a hint of metallic reverberation. Deep crunchy wobbles and hi-tech growls fused with tropical percussion. This is premium sound and cutting edge creativity. If you want builds that don't linger too long and fit like a glove as they transition, synth chops that robotically walk and light up a room with their precisely crafted harmonious time then Hybrid Trap Wolf is exactly the edge you need to light up your mix.

We are offering a uniqueness that cannot be duplicated and won't fall flat of your expectations. Cutting edge tech meets powerful soul gripping emotive progressions. Pumping bass, distinct leads, and impeccable timing. We have even left enough breathable headroom to allow you to manipulate and construct your own vision.

Not sure where to start? Use one of 5 construction kits to empower and inspire your creativity. Like the sounds and want to build your own melody? We have included over 60 presets that you call the shots and have full control. This pack gives you access to not only our sounds but the insight into how we created them.
