

'What About: Mainstage EDM Breaks & Drops' from W. A. Production is a phenomenal pack that includes more than 4 GB of content divided into 12 super-fat Construction Kits. Inside this 100% Royalty-Free pack you will also 45+ MIDI files as well as 50+ presets for Sylenth1 and Spire. Instant inspiration and top-notch sounds are guaranteed.

'What About: Mainstage EDM Breaks & Drops' was carefully prepared by the same group of producers and ghost producers, that have released the recent Producer Loops #1 release, "What About: Ultra EDM Tools". These producers have released bangers on labels such as Revealed, Dim Mak, Ultra, Oxygen and others. Inspired by the best and freshest sounds of the EDM scene.

The sounds of Blasterjaxx, Bassjackers, KSHMR, Ummet Ozcan, Martin Garrix, Alvaro, Ralvero and others can be heard in this ultra-relevant pack. Let these Kits inspire you or simply use all samples as they are mixed now.

Drop tracks as well as breakdown tracks are provided in dry and wet versions. Most of synth loops are provided with their own presets. If you like any of the sounds, you can simply use the preset of it and create your own melody, for example. The possibilities are limitless.

Everything is 100% royalty-free and ready to drag and drop right into your mix. What About making your tracks mainstage?
