

What's large is in charge. And man is this pack large. Boasting over 2.5GB of pure Bounce.

Covering elements of electro-house, Melbourne bounce, Scouse house and everything in between to get you energized and poised with creative motivation. Get ready to experience twisted FX and tight one-shots. Smooth and deep post-apocalyptic bass sounds roll behind abrupt plucks and classic house synth sounds. We have captured organic drum sounds, breakbeat patterns, as well as those muffled background percussive sounds that give texture and create atmospheric space. Of course, we also delivered some true tension builders that will generate excitement and anticipation as you bump it up to the next level.

Construction kits are amazing sound apparatuses that can be utilized by makers hoping to grow their abilities in a specific genre or producers who require a snappy and sorted set up straight out of the box. This pack gives the genuine embed FX alongside the sounds so you can reproduce the same sound found in the pack. Or you can apply any of your own custom acclimations to make it your own.

Do you want more bounce to the ounce? You want What About: Panda Bounce from W. A. Production.

The fine print:

Here at W. A. Production, we adhere to a strict standard of quality. We spend time behind the board with our hands-on and our ears open accepting only the best of the best. Our producers are affluent in the EDM scene and are at the forefront of creation. We won't put our name on just anything. This ensures you that there are no regurgitated sounds of yesterday. We want to be the leader, we want your mix to lead. We stay one step ahead of the game and offer these sounds to you so that you can master your craft and get the results you want. You expect the best and so do we. Buy our packs with confidence and knowing that you'll get the latest and most innovative sounds with the utmost respect for audio production quality.
