

**'What About: Ultra EDM Trap' is a stunning and a long-awaited pack by W.A. Production that contains 12 wild Construction Kits and more than 25 presets for Sylenth1 and Spire, together with 40+ MIDI Loops. Each kit perfectly mixes Trap features and EDM festival atmospheres. Thanks to this combination you will receive only the most epic and top chart sound. All 100% Royalty-Free.**

Every single Kit is stuffed with the most current drum, FX, vocal and synth samples. Massive build-ups, drops, melodies and more await you.

'What About: Ultra EDM Trap' was made by a group of skilled EDM producers and ghost producers from W.A. Production's team, with releases on labels such as Revealed, Dim Mak, Ultra, Oxygen and others. These samples have been inspired by only the best and freshest sounds from the EDM scene.

Let these Kits inspire new creations or simply use the samples as-is for fast and easy results.

Drop tracks as well as many of the breakdown tracks are provided in both dry and wet versions. If you like any of the sounds, you can simply use the preset of it and create your own melody. The possibilities are limitless.

Everything is 100% Royalty-Free and ready to drag and drop right into your mix. What About making your tracks ultra?
